### Build The Model That's Right For You.

#### Skill Level Codes

In addition to the extraordinary variety of Revell model kits to choose from, each retail package is coded according to the level of skill required for assembly. These helpful guidelines ensure that everyone can select a kit that best fits their modeling ability. Whether it's Skill 1, SnapTite® or Skill 2, 3 or 3+, each of our kits meets the same high standards of detail and quality we're known for.

#### Paint Guide

Each of our kits includes a printed paint guide on the outside of each retail package. There's no need to open the box to find out what paints are recommended to match the model shown on the box.

## Revell From Germany

Based in Bünde, Germany, the European Revell offers a wide and varied selection of model kits and die cast replicas. Designed to meet the modeling interests of the continental buyer, this Revell product line is very different than its US counterpart. Like Revell Inc, Revell of Germany offers new products to their consumers every month.

Each year, more and more US retailers carry Revell of Germany products. If your local retailer does not yet carry them, ask him to contact his distributor or Revell Inc for information.

If you wish to see the line for yourself, the complete Revell of Germany catalog is available at [www.revell.de](http://www.revell.de).

So take a look. You won't be disappointed.
